Health Professions Division Adjunct Radiologic Technology Clinical Instructor

Established Radiologic Technology Program seeks applicants for part-time adjunct clinical instructors for clinical rotations. Areas of responsibility include the implementation and evaluation of clinical practice of first and second year students. Candidates should possess a strong desire to teach with student success as a primary goal.

Qualifications:

Current NYS Radiologic Technologist license is required. Graduate of accredited school of Radiologic Technology and certification by the American Registry of Radiologic Technology (ARRT). A bachelor or master degree in a related field from a regionally accredited institution of higher education is preferred.

Candidates must possess a minimum of two years of active clinical experience as a licensed Radiologic Technologist. Previous clinical and/or classroom teaching experience considered a plus. EOE
