Career Services

FM has a variety of services offered to both students and alumni. Need help looking for a job, writing a resume or cover letter, or finding the right career path? Come to the Student Solution Center and make an appointment with the transfer counselor.

We have a great online resource, Career Cruising, where you can complete assessments to learn more about your career goals, skills, and learning styles. You can also have the ability to search for careers, schools, and employment opportunities.

Also, remember to check the FM’s student portal for electronic job postings and the Student Development Center for other job leads.

If you need assistance accessing Career Cruising, please contact the Student Development Center.
