2017 JRCERT PROGRAM ANNUAL REPORT

Program Effectiveness Data

Number of Graduates in 2017: 15

Enrolled in 2015: 17 students (Class of 2017)

15/17(100%)=88.23%%

Annual Program Completion Rate: 88.23% (2017 only)

PCR is identified as the number of students who complete the program within 150% of the stated program length compared with the number of students who initially started with the cohort.

Program benchmark: 75% of freshmen will complete the program within JRCERT specifications.

FMCC stated program length for Radiologic Technology is 24 months. Program entry point is considered the official class roster date as compiled by the registrar's office.

Program completion rate is defined as the number of students who complete the program within 150% of the stated program length. The program must establish a benchmark for its program completion rate. The program specifies the entry point (e.g., required orientation date, final drop/add date, final date to drop with 100% tuition refund, official class roster date, etc.) used in calculating program's completion rate.

17 students initially enrolled in Class of 2017

1 left for personal reasons

1 stopped showing up for class and was not able to be reached

15 students graduated within the timeframe set by the JRCERT

The program's benchmark for annual program completion rate is 75%.
