

Fulton-Montgomery
Community College

Transfer Services

Fulton Montgomery Community College provides transfer guidance to any student who is interested in continuing their education after FM. Students can schedule an individual appointment to meet with the transfer counselor. In addition, transfer workshops are available to discuss transfer options, the transfer process, and how to select the school that is right for you.

FM offers both a fall and spring Transfer Fair. Over 40 four year colleges are represented on FM's campus.

FM has entered into Transfer Articulation Agreements with several public and private universities. An articulation agreement is a detailed sequence of coursework that has been pre-approved by the transfer institution. These agreements ensure the transfer of FM courses, allowing the student to automatically enter the four year college as a junior. Some agreements offer automatic admission to the transfer institution. Students are encouraged to work closely with their academic advisor to guarantee successful completion of the agreement. Transfer Articulation Agreements are not required for transfer. Due to the development of online transfer equivalency databases offered at most four year institutions, a seamless transfer can be planned with or without an agreement. The Transfer Counselor can work with you on the navigation of these tools.
