Sophia, Vietnam Major at FM: Business Administration
Current major: Communications - Public Relations track.

My name is Sophia Vo. I am originally from HCM Vietnam, and this is my 5th year of studying in the United States. I attended FM in 2010 for two years for an associate's degree. FM happened to be the place where I experienced many first things in my life: getting an on-campus job, receiving the first paycheck and most importantly, exploring my future career. During my years at FM, the International Student Office had opened many opportunities for students from different countries to attend in events that helped them expand their knowledge on different cultures. We also had a chance to show our willingness to help for those in need, especially a fundraising event for Japanese victims of tsunami and earthquakes. Because of their great effort of reaching out to the community, I knew what I wanted to do for my future career after my college years. I would love to work for a nonprofit organization that have the same goals as I do to develop a better community for everyone.

Anas – Pakistan Business Administration major
“FM gives me the opportunity to make my dreams come true; it is one of the best colleges for any international student.”

Yoojeong – South Korea
Elementary Education major on the job with her 6th grade class
