Student Name \_\_\_\_\_ Social Security Number \_\_\_\_\_

In-kind support is other than money that was provided to the student (spouse) and dependents.

If the student (spouse) and dependents lived with friends or relatives during 2017, and the friends or relatives paid expenses for that student (spouse) and dependents, the student must report that as cash support on Students 2017 Untaxed Income. This may include rent, utilities, food, clothing, childcare or transportation.

The basic rule is: *If someone pays money that the student would otherwise pay, that money is counted as cash support.*

**STUDENT:** List yourself (spouse) and all dependents that lived in the household:

Full name of family member	Birth date	Relation to student

The amount of cash support is as follows:
